

AT HABASCA LANDING.

The Hudson Bay Co. flotilla of flat boats left here on the 27th inst. carrying some 80 tons of general freight. This is the last shipment of large amounts for the north this season.

Colin Fraser is expected daily but owing probably to high water and everything in general being so slow in tracking he is making very slow time up stream.

The weather for the last week has been all that could be desired in day time, but at night time, the sky would become over cast and rain would be sure to follow.

One of Desjarlais' boats left here on the 27th July en route to Lesser Slave lake taking freight and passengers, Mr. and Mrs. White to Lesser Slave lake, English church mission, and Mr. E. Lawrence and party to Vermilion, Peace river. Mr. Lawrence intends taking to Lesser Slave lake the machinery and parts of the engine which broke through the ice last year and which was saved by being taken out in low water and placed upon the bank. He is now gathering it while travelling in Desjarlais' boat, with the view of getting it nearer to the Peace.

The Athabasca Landing is very peopled. Only the arrival and departure of boatsmen and freighters change the topics. Prosperity is shown here through a very quiet degree since the liquor has been kept out. Natives, both half-breed and Indians who work on the transport are very comfortably provided for, all of them investing in suitable clothes and have also cash balance to their credit to start upon winter work. This state is credited to the whiskey being kept out and one and all are benefited and all have a satisfied smile.

The very presence of our general corporal of the N. W. M. Police has an influence which is not easily passed over and that influence is for the public good.

And the Athabasca Landing today though slow and methodical observes that a steady flow of trade is rather on the increase than otherwise.

Desjarlais is kept here waiting for the arrival of his freight.

Sam Green, trapper, takes his departure down stream in a few days, taking his supplies for the season.

The weather is very warm here and gardens are supported.

Water in the Athabasca is very high at present. No trouble for navigation for some time to come.

July 31, 1901.

COMMUNICATION.

I would like to refer to the conduct of our license commissioners in granting a license for the sale of liquor at Star. Near Star there is a large Galician population. About 20 or 25 miles from Star there are two half-breed settlements, Wapiti and Victoria. These settlements are sober and orderly except when some resident, generally a white man, on a return trip from Edmonton takes liquor into the settlement.

The license at Star brings the traffic much nearer to these settlements. It makes it easier for them to procure liquor and will no doubt result in more frequent carousals. It is an established, undoubted fact that drink inflames the passions of men and is the direct cause of a large percentage of our crime. Not 12 months ago two young men at Victoria, one of them a white and one of a Hudson's Bay Co. official, when under the influence of liquor began to quarrel, and the latter, they were stopped by an ex-policeman who heard their talk and noticed the distress of the girl.

Must our license commissioners grant every application for a license? Have they no liberty to use their own judgment and discretion when an application comes before them?

If they have not, and are patriotic men, men who desire the welfare and material and moral good of the rising communities in this great western country, if they are men of spirit one would think they would not receive than be mere machines to carry out the will of an executive which seems to be shamefully indifferent to public opinion on this question.

There is not yet even a village at Star. The travelling public can find accommodation at the usual stopping places. The granting of a license at such a place seems to be a new and unfortunate idea in reference to the traffic in our western country.

Signed,

ONLOOKER.

East Edmonton, Aug. 3rd, 1901.

MASSIC INSTALLATION AND SUPPER.

Thirteen members of the local masonic fraternity drove to Port Saskatchewan Saturday to institute and install the officers of Victoria Lodge 76 A. F. & A. M. The following brethren went down: Aug. 8, Robertson, Braithwaite, Dunlop, Bragg, McKay, Bennett, Boyle, Sigler, Nankin, Daniels and Taylor.

The officers installed were: J. M. Moran, W. M.; J. F. Forbes, S. W.; J. McDonald, J. W.; G. T. Montgomery, treasurer; H. E. Daniels, secretary; Hughes, T. G.; H. M. Bing, Tyler.

On the conclusion of the installing ceremonies a most enjoyable supper was served in the Mansion House, to all the members of the order present. The toast last was:

The King and the Craft, replied to by the singing of the national anthem. Musical selection, Sergt. Ritchie. The grand lodge of Manitoba and the Northwest Territories, responded to by H. C. Taylor, D. G. M., and Dr. Braithwaite, G. W. W. Address by Dr. Bennett.

The learned professions, Messrs. Boyle and Robertson.

"Victoria Lodge," was replied to by Dr. Braithwaite and the junior wardens' toast by J. R. Boyle.

Owing to the absence of the W. M. J. Dunlop was acting master of ceremonies. J. F. Forbes occupied the vice-chair.

MANITOBA CAT CROP.

Tribune July 12. A prominent grain dealer of the city, speaking to a reporter of the Tribune this morning, expressed the opinion that wheat cutting would commence about Aug. 5 and would be in full swing by Aug. 15. The cat crop, he thinks, has been damaged by the rain, and the price of oats this fall and next will be very high. He says there is no doubt about the damage by rust. His men, in travelling through the country, are continually being informed of the danger of a poor crop.

IMPORTANT SUGGESTIONS TO FARMERS.

The grain dealers' association have issued the following bulletin of special value to farmers:

It is desirable that farmers, when having wheat and other grain to sell, should get best prices. This can only be done when grain is in a merchantable condition, being dry, clean, sound and free from weeds and other mixtures. This is especially true of wheat.

There is one feature that we wish to call the attention of the farmers to at this time, and that is this:—

See that the threshermen who thresh your wheat uses his fine machinery to clean the seeds, dirt and other matters out of your wheat. The separating department of these threshing machines is so constructed that it will put wheat in a merchantable condition, and it only remains for the farmer to insist upon it and see that the threshermen does this. You should also insist upon his carefully cleaning your oats, barley and other grains.

When the farmer takes clean grain to market he gets the top price, instead of being cut from 5c to 10c per bushel on his dry grain, or have the grain "made clean" his wheat so he can haul his screenings home again.

If foul seeds, broken straw, cracked wheat and other matters are cleaned out when threshing the farmer gets a pay for threshing the dirt; but pays for the clean wheat.

No one can deny that our threshing machines have excellent cleaning capacity, therefore make sure that the machine does its duty.

A most important reason why the farmer should have his wheat well cleaned and screened is that it will be better in the bin than when dirty.

The farmer pays the threshing machine per bushel for threshing screenings as he does for clean wheat and if the dirt is in it he pays more for it in the end by losing his wheat cheaper. Screenings are worth more to the farmer than to anyone else. The grain dealer pays the farmers a price for standard 60 pounds of marketable wheat. It must be reasonably clean to grade.

The grain dealers especially urge their friends to get wheat and other small grain into clean, merchantable shape this year before bringing it to the elevators. During the year just past grain merchants sustained losses on account of buying and shipping dirty and damp wheat, when they would have made a fair profit if it had been clean when bought. We learn from talking with them that they cannot possibly afford to pay market price for any except good marketable 60 pound wheat and that all wheat received in bad condition for any reason, whether dirt or poor quality, will necessarily have to be largely discounted.

The dealers therefore urge you to insist upon threshermen cleaning your wheat and other grain thoroughly, and thereby help you to obtain satisfactory prices.—Nor-West Farmer.

COL. DENT RETURNS EAST.

Calgary Herald.

Colonel Dent left this morning for Macleod and after purchasing some horses at that point, he will proceed east, stopping at Moxey, Jaw, Qu'Appelle and a few points in Manitoba. During his visit to Moxey he has purchased about 650 horses. A rather disappointing number in view of the many horses on the ranches. This is accounted for, however, by the fact that as the horses were required for immediate use and the colonel was restricted to the purchase of broken animals. Colonel Dent has been very satisfied with the horses he has purchased. They are simply a good class of cowboys, with a sprinkling of "better" class animals, and a number of similar animals can be raised in Alberta.

CREAMERY ASSOCIATION AT RAY.

A meeting was called by the farmers in the vicinity of Ray on Saturday, 3rd August, 1901, at 8 p. m. for the purpose of organizing a creamery association. It was moved by Miles McMillan, seconded by Ronald A. J. McDonald that Ronald A. McDonald be chairman of the meeting. Carried. It was moved by Miles McMillan, seconded by R. A. J. McDonald that Archibald H. Cameron be secretary for the meeting.

After a thorough discussion as to the advisability of forming a creamery association and establishing a skimming station at Ray, officers for the purpose of organizing a creamery association were elected. It was moved by Miles McMillan, seconded by Ronald A. J. McDonald that Ronald A. McDonald be president of the creamery association of Ray. It was moved by R. A. J. McDonald, seconded by W. Glen that H. A. Cameron be secretary of the creamery association of Ray. It was moved by R. A. J. McDonald that a board of management for the creamery association of Ray, all of which were carried.

BAND PROGRAM.

The following program will be rendered by the Edmonton fire brigade band at the Imperial Bank corner this evening:

Overture, Garden City, L. Raymond.
March, The Sentinel, R. B. Hall.
Waltz, My Queen, P. Bualois.
Serenade, The Soldier's Dream, W. S. Buley.
Polka, Zangara, Snowberger.
March, Sealy Ritz, R. W. Berry.
Andante and waltz, D. S. McCosh.
Serenade, Pleasant Dreams, W. S. Buley.
Schottische, Eulalia, D. S. McCosh.
Go! save the King, R. S. Paul.
All members are requested by the bandmaster to be at the fire hall at 7:30.

EDMONTON EXPORTS.

July exports from Edmonton station:

| Birds, | 7,500 pounds |
| Liquor, | 27,590 pounds |
| Clutter, | 30,000 pounds |
| Hides, | 100,750 pounds |
| Other, | 40,000 pounds |

EDMONTON MAN INTERVIEWED.

An Ottawa exchange has the following:

"A great fighter was Gai Howard and the 'oss' of South Africa idolized him," said Sergt. Jackson, of the Canadian scout's yesterday on his way to his home in Edmonton, N.W.T. With him was Sergt. Robson, whose native place is Hamilton. "The monument that is to be erected in memory of Gai," continued the speaker, "will be the finest in South Africa. Each of the scouts in our corps gave five quid (five sovereigns), and the individual subscriptions of the officers were larger. The 'victims' of other regiments gave liberally and the amount already subscribed is very large, although I do not know the exact figures. Gai Howard will long be remembered in South Africa as a daring and resourceful fighter."

What a Tale It Tells.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, red patches and blotches on the skin; if it's liver trouble, but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25c at Macdonald's drug store.

The Local Improvement Ordinance.

Notice is hereby given that, under the provisions of Section 1 of The Local Improvement Ordinance, the Honorable Mr. Justice Scott has appointed Wednesday, the 3rd day of October, 1901, at 10 o'clock, a. m. at the North-West Mounted Police Barracks in Port Saskatchewan for the holding of a Court for confirmation of the returns made under Section 31 of Chapter 73 of the Consolidated Ordinances, 1894 in respect of the following Local Improvement Districts, viz:

Local Improvement Districts Nos. 2, 17, 23, 31, 40, 53, 407 and 446.

Dated at Regina this 18th day of July, 1901.

J. S. DENNIS,

Deputy Commissioner of Public Works.

Twelve Million in Force.

The Great West Life Assurance Company, from its inception, pursued a most conservative course with regard to its Reserve, realizing the importance of fully safeguarding the interests of its policy-holders and making provision that afforded undoubted security for carrying out all contracts entered into, and until two years ago was the only Canadian Company adopting the stricter standard. That this course was wisely directed is evidenced by the fact that the Canadian Government has since January, 1900, required from all Companies a higher standard of Reserve, thus endorsing the sound policy of the Great-West Life.

In addition to creating an ample Reserve, there are two other factors of vital importance to the policy-holders, namely, the safe and the remunerative investment of the funds. That this Company can point to the fact that it does not carry one dollar's worth of property under forced sale mortgages, is a sufficient testimony to the manner in which its investments have been made. While thus successfully handling its funds, it has been able to earn a higher rate of interest than any other Company, justifying its claim to be the best Company for its policy-holders and proving it worthy of the recommendation of its friends.

The great western country of Canada is acknowledged by all to be the most favorable field for the investment of money provided the investor has experience and a thorough knowledge of the country. The Great-West Life is fortunate in having its Board of Directors many of the leading, and most experienced and successful investors of capital in the West.

The fact that the Great-West Life Assurance Co. earns two per cent more interest on its funds than any other Company doing business in Canada, explains why it can, at the same time, charge a lower premium and return to its policy-holders a greater dividend than any of its competitors.

O. BISHOPRIC.

Special Agent,
Edmonton, Alta.

JOHN ROSS & CO.,
General Agents.

SEALED TENDERS addressed to the undersigned, and opened at the tenders for Immigration Building, Leithbridge, N. W. T., will be received at this office until Friday, 9th August, inclusively for the construction of an Immigration Building at Leithbridge, N. W. T.

Plans and specifications can be seen and form of tender obtained at this department, at the Public Building, Leithbridge, N. W. T., and at the Court House at Calgary, N. W. T.

Persons tendering are notified that tenders will not be considered unless made on the form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable Mr. Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, which will be forfeited if the party declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The department does not bind itself to accept the lowest or any tender.

By order:

FRED GELINAS,
Secretary.

Department of Public Works,
Ottawa, 16th July, 1901.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

GRAVING FOR RAILWAY EXTENSION.

Work on the railway extension grade is being rushed since the fine weather opened up. A short stretch of the right of way remains to be cut out. One hundred and fifty men are now at work on the grade and shovels, picks, carls, wheel scrapers, plows and blasting powder are shaping the bed for the rails. The wet weather, though delaying work almost completely for a time, has left the soil moist and most adhesive and hence most suitable for working. Last week the men were able to get in the first unbroken week's work and every day the fine weather continues to be used to the utmost. The graders are now at work as far as the point where the Coking Lake trail crosses the ravine and are strung all the way south to the entrance of the line into the creek. Groups of men are engaged farther north cutting through the nose of a sharp ridge running out into the ravine and digging roadways along the brow of the hills where the cars and scrapers may be got to work. The heaviest grade undertaken so far is the first grade on the line, where it enters the valley. Here the course of the creek had to be raised and the ravine filled from the hills on either side making an embankment of considerable height and length. On one side of the gulch the clay was found so hard that blasts have to be used to break up the earth, which is hauled to the crest and dumped over the embankment. The ends of these two grades are rapidly nearing each other and form that part of the grade most nearly complete. The earth throughout has so far been very hard and four horses are used regularly on the plow. The hills are in places very gravelly and though harder to grade on this account should make the firm foundation for the track. The heavy cut and grade is being made where the Coking Lake trail climbs the east side of the ravine. Here the roadway has been changed and a deep cut is being made along this face of the hill, the dirt being used to form an embankment on the opposite side. The men and teams are separated into groups, each burrowing through a hill or filling up a ravine. The system gives plenty of room to work and has a greater portion of the grade under way at the same time. While much of the grade is yet ungraded, long stretches is practically done and every day is an approaching completion.

TOWN COUNCIL.

A sitting of the town council, conspicuous for its brevity, was held in the council chamber Wednesday night. The proceedings of the three previous meetings were confirmed.

Willis Chipman wrote that he would be in Edmonton about the 14th. He would advise the council by wire a few days before he arrived. Mr. Chipman is the waterworks engineer.

W. J. Webster wrote regarding his woolen mill. He would be here in the early part of August.

H. F. Morell's acceptance of the town's offer as to the purchase of his lots on the market side was read. He

left this with the two preceding ones, was read.

In regard to P. M. Barker's claim for damages resulting through a fall on an ice covered sidewalk last winter, Coun. Hickey reported that he had

William conducted the members of the Dowager Empress household into the death chamber and led one by one past the bedded to take a last farewell of their mistress.

Chas. Sandison and H. F. Morell were added to the tax roll.

The following accounts were ordered to be paid and then council adjourned:

DIED AT LACOMBE.

Geo. H. Jamieson, brother of F. C.

Jamieson, of Strathcona, and E. A.

Jamieson, D. D. S., of Lacombe, died

at Lacombe last week. Of his death

the Advertiser says: "There passed

away on Sunday evening, August 4th,

one of the best known and most re-

spected citizens of Lacombe, George

H. Jamieson. He had been falling ill

of late but none thought the end so

near. Born 35 years ago in Carlton

county, Ontario, he came west when

about 22 years of age, spent two years

in Manitoba, and a half in Macleod

and two in Calgary. Coming to

Lacombe over eight years ago he has

been known as an upright and

man of fine integrity and has ad-

ded his quota to the material and moral

development of the place. He was

married eleven years ago and leaves

a widow and one child, to mourn his

loss. Besides these his mother and

three brothers, Geo. F. C. and E. A.

survive him and have the heartiest

TOWN POLICE REGULATIONS.

At Wednesday's council meeting a by-law was passed entitled "A by-law respecting the police force." In effect the by-law, which is framed to

overcome the recent troubles between the members of the force, provides as follows:

That the town police force of the municipality shall consist of such numbers of constables as the council may

by resolution from time to time appoint. One of the constables shall be

in charge of the fire apparatus, and shall be referred to as the made constable.

The others to be known as the "outside constables." Every constable shall hold office during the pleasure of

the council. Every outside constable shall, in addition to his duties as such, be a license inspector under the liquor

license ordinance and under the license by-law, and also an overseer of any public work in the municipality and

shall at all times be under the instructions of the council or mayor. Arrangements are made for the keeping of a record book in the fire hall in

which each outside constable shall enter immediately after the occurrence, the name of every person

taken into custody by him and any other particulars concerning him, as to the offence, etc. The book shall be produced daily to the police magis-

trate. A person taken into custody for an offence against a by-law, and arrested without a warrant, the inside constable may before the accused is

tried allow such person out on the accused giving a written undertaking to appear for trial, provided the inside

constable shall have obtained the written consent thereto of the outside constable on duty at the time or the

consent of the mayor or chairman of the committee on police and police.

The salaries of the outside constables shall be \$60 a month each, and such fees as they may by law be entitled

to. The hours during which the outside constable shall be on duty shall be regulated by the license and police

committee from time to time. In case of emergency the inside constable shall report for duty for an outside constable.

Will not Shrink

The rain may come and go, but its effect upon

Shorey's Ready

Tailored Clothing

is nil. There is no shrink in the goods are all sponged and shrunk before being made up. Shorey's reputation is attached to each individual garment—you will find a guarantee card in the pocket.

It costs no more than the unsatisfactory kind.

Material, style, make and finish irreplaceable. That is why we sell it.

Money back, if what we tell you is not true.

Great Clearing Sale..

For the next THIRTY DAYS we will offer our entire stock of

Men's Fur Coats

WINNIPEG AND ITS FAIR.

The Winnipeg fair is over. The big mid-summer holiday of Western Canada is a thing of the past for the season of 1901, and every provincial "local" and Imperial Limited that pulled out of Winnipeg last between Friday and Tuesday last was just as sure of being back in the belt with returning pleasure seekers as it was of being anywhere from twelve to twenty-four hours behind schedule time. Every quarter of Manitoba and many of the American towns across the line contributed their share of the masses which crowded the grounds and grand stand, but it is beyond dispute that no place of the size and distance away from Edmonton contributed so great a number of sight-seers as did that town. Eighty-five tickets were sold here for the fair. The first train out left Friday morning at 10 o'clock, carrying Winnipeg Sunday afternoon. The second left Saturday morning and reached its terminus on Monday. Lieut.-Governor Forget came on board the Saturday train at Regina, on his way to participate in the exhibition ceremonies at the fair. Winnipeg was just waking when Monday's train steamed in. But early in the week as it was accommodation was already at a premium. The ordinary observer is quite likely to be struck with one thing on reaching Winnipeg; that is, the number of hotels on every hand. In spite of this, accommodation in hotels was exhausted and resort was had by those who had not already arranged for bed and board, to the bureau of information established by a thoughtful management in an office in the city hall. Citizens threw open their homes, for a consideration of course, and stretched camp beds and blankets on the parlor carpet. Monday noon the fair opened. Monday was children's day and thousands of prettily costumed boys and girls thronged the grounds. The family booths, the side-shows, the Ferris wheel, and the merry-go-round with the inevitable steam piano did a rushing business from morning till night. The rocket of the fireworks display had roared its way through darkness into space. After the evening programme comes the race and the automobile. The grounds are some two miles from the city and a special line of trolley cars runs from the city, stopping frequently throughout the day and evening. Even this service is not enough to relieve the pressure, so the P. R. H. whose tracks run past the fair, has run special trains out and back every three minutes. The grounds themselves are large and the many buildings commodious and handsome. The grand stand would seat some ten thousand people, but its capacity is inadequate for the crowds in the exhibition's closing days. Walks run through the grounds, which are very conveniently laid out. The track itself is the same size, both in length and width, as the one in Edmonton and it certainly does not appear expensive in any feature. The grand stand is set back about 100 feet from the track and both attraction and platform and judges stand are between the grand stand and the track instead of with the grand stand as in Edmonton, with the natural result that a view of the course is impeded greatly, especially when an attraction turns is being put on.

Right here it might be said that no praise is too great for the management in reference to the quality and quantity of the attractions they provided for the amusement and entertainment of their guests. They have realized that in order to attract and hold the attention of a crowd good entertainment must be provided, and in providing what they have supplied the best that could be procured on the continent. The piece-de-resistance of the evening has been the Chinese, the taking of the fair by the Chinese forces. The walled Chinese city is seen, with the river flowing in front. With vast scenic settings, lighted by powerful reflectors, this scene is most natural and impressive. The Chinese in their quaint costumes seem to issue from the main gate. They excitedly converse with each other. All unsuspecting the missionaries issue from their church nearby. The Chinese, excited by a leader who harangues them, dart on the missionaries and stab them to death, dragging the bodies inside the gate. Then, incited by a fanatic, the boxers raid the church and blow it up. The roof is blown in the air by the force of a great explosion and the front wall is crumbled and falls. A counter point, arrived exactly being the word of the approach of a British war ship. A hurried consultation and a Chinese boat crosses the river to the opposite shore, planting a torpedo in mid-stream. The boxers land and wait to explode their mine on the approach of the foreign ship. Two blue-jackets approach stealthily. Unseen they fall upon the Chinamen and at the pistol's point compel them to explode their mine. Overwhelmed the Chinese obey and the water shoots high in the air. The blue-jackets then signal the ships to approach while they retire with their prisoners. The men-of-war approach and the Chinese fleet comes out to give battle. A hot and exciting encounter ensues and the air is thick with the flying torpedoes which each fleet hurls at the other. The Chinese boats at last are struck, set on fire and sunk, and the allied army marches up the shore on the opposite side to the city containing enemy passing by in the uniform of the country it represents and all gather at a point just opposite the city gates. While forming here a Chinese force attacks them in the flank. For a few minutes the darkness is stabbed with flashes from the rifled muskets and the air is rent with the roar. Then the boxers give way, they fall back and with a cheer and a rush they bring the spectators on the grand stand to their feet with a responsive echo, the allies rush on and rout the boxer horde. Meanwhile the ships are bombarding the city and building after building is shot to bits. A British battery on the shore opposite also unleashes and adds its shells and booming to the battle. By this time the allies have driven the enemy across the river to the city side and here, after a short struggle, the boxers break away and take refuge behind the walls. The allies pursue and amid roar, smoke, flame and falling of buildings and roofs then this is taken and razed. The wonder of it was that in this mimic warfare, so real and so exciting that one forgot it was only imitation, some one was not killed.

ed, for the amount of flame and explosion was quite sufficient to add an element of real danger to the scene. The evening programme was pretty concluded with a magnificent display of fireworks the air was full of every conceivable form of colored fire, and fountains of flame spouted high in the air on every hand. As a finale to the display a giant hand, outlined in letters of fire, blazed prominently out, bearing across its palm the inscription: "We extend the glad hand to all our visitors."

The platform attractions were unequalled. Black and light performers kept the audience alternately amused and thrilled. "Marvelous March" the bicycle man who comes down an inclined platform a hundred feet in the air and leaves his bicycle in mid air to plunge 70 feet down into shallow tank of water was one of the "thrillers." Another artist performed on a tight wire stretched one hundred feet in the air. There was no net, nothing to catch him and a fall meant his finish. Yet clad in loose clown garb, in the teeth of a regular wind he went out and made the trip across, some fifty yards. At night he decorated himself in fireworks and set them off when making the journey. Two families of acrobats vied with each other in some of the most graceful and beautiful feats of the art, acrobats. Four trained elephants probably made the high of all the platform attractions. With specially constructed instruments they constituted themselves a band and provided sections which were amusing if not altogether harmonious.

The daddy of the bunch so far forgot that solidity and staidness which is considered part of an elephant's make-up as to participate in a mazy waltz and a giddy cake-walk. Another rode a bicycle and all performed tricks which were marvels in intelligence and training. The attractions through were splendid and while they were out, the fast horses might pass unnoticed. Citizens day, Thursday, and American day, Friday were the days of the fair. On Thursday it was estimated that 35,000 people gathered on the grounds. It was a half holiday in the city, the only one during fair week.

Sole-shedding the grounds and megaphones and other noise-making devices shouted out the advantages of leather lugged shooters assisted by their respective companies. Entertainment and assured the crowd that they had the "best show on the grounds." The "estate turning a lie" was the best of the various optical and other delusions provided by the various tented and in their efforts from South Africa provided a little exhibition that was not fake. Many interesting relics gathered from the fair were on exhibition, the whole in charge of a wheelwright of the Canadian battery which marched to the fair. The "estate turning a lie" was the best of the various optical and other delusions provided by the various tented and in their efforts from South Africa provided a little exhibition that was not fake. Many interesting relics gathered from the fair were on exhibition, the whole in charge of a wheelwright of the Canadian battery which marched to the fair.

The exhibits of farm produce and live stock were good and on farmers' products especially attracted many sight-seers. On these the visitors from Assiniboia and Alberta looked with an eye to comparison. The "estate turning a lie" was the best of the various optical and other delusions provided by the various tented and in their efforts from South Africa provided a little exhibition that was not fake. Many interesting relics gathered from the fair were on exhibition, the whole in charge of a wheelwright of the Canadian battery which marched to the fair.

To horsemen the races were the event of the fair, and the event of the races was the free-for-all on American day. This was the big prize. The entries were: Tom Ogden, Ione, Elicy, A. R. Pailmont, and Altair. They finished in the order named. Among the American visitors on American day was the Grand Forks baseball team, the leaders in the league who came over to meet All-Winnipeg team. They played late in the afternoon at River Park and the game was a ragged exhibition of ball, particularly on the part of the Winnipeg combination. The score was 29 to 7, the visitors making 14 runs in one inning.

The Winnipeg Theatre and the auditorium skating rink—which has been converted into a bright and airy summer garden—provided the down town entertainment. At the theatre the S. I. Perkins comedy company were playing to great houses. The chief attraction of the company was its gill. At the auditorium the International opera company put on a series of well known operas and put them on well.

The weather throughout fair week was perfect.

Winnipeg itself is growing into a city of imposing size. This change within the last few years is most surprising. It is growing out of its "big town" appearance and assuming a city-like air. Handsome brick structures are rearing their four and five stories in the air. The city is being paved throughout with asphalt so that now the famous Winnipeg mud, the terror of pedestrians in years gone by, is a part of the past. The features of the main business portion of the city is the number of wholesale warehouses, mainly branches of large eastern concerns, which are built or are being erected. With all its modern improvements and rapid advance in the manners and appearance of the cultured east, it is yet a city of contrasts. It has not yet by any means grown out of the characteristics of its childhood. A pebble's throw from a handsomely paved avenue one has to walk on an old dilapidated sidewalk whose worn-out planks and generally tumble-down appearance would not be tolerated in any self-respecting village in the west. However, it is doing its best, and the taxpayers of the city when the tax bill comes around express themselves quite well satisfied with the progress of the city and do not press for any more rapid improvement or increased expenditure. They tell a story of a man who bought a little residence on a faded street. One day another man came along with a bill for \$600. "Why, said the householder, I paid for the house when I bought it?" "Yes," the collector replied, "but these are your year's taxes."

On the way west on Saturday, 100 miles out of the city, grain was being harvested along the track in one or two beds. Or—outs were being cut. The crop looked well but not all of it by any means was in condition for harvesting. To one accustomed to the growth of Alberta the straw looked stunted. But the agriculturists of

Manitoba are elated over their crop prospects, which, if the unforeseen does not happen, should certainly result in a magnificent yield. There are too many ex-residents of Edmonton in Winnipeg for a visitor from the "city of the Set" to be able to ever feel homesick in the Manitoba metropolis. Frank Marini, in running a restaurant on main street and doing well. W. L. Foster is in Oiler, Hammond & Nanton's offices; Frank Hardisty had just returned to the city having been out with the crop commissioners; The Morton brothers who lately visited Edmonton and spent some time here, have taken their homes in the Copeland-Chatteon Co. and many other ex-residents are located in different parts of the city.

STURGEON.

The fine weather of last week has given us splendid roads in the district, the only bad roads being those lately graded into town.

Raspberry picking is all the go these days.

The many friends of Rev. H. E. Gordon, a previous pastor of this field, are pleased to hear from the Calgary Herald of his success at that city.

Crops are in splendid condition and indications are for a bountiful harvest.

Mail arrived on time this week much to the relief of the country side.

Rev. P. Iverson, Thackeray, preaching a course of sermons on the Life of Moses, which are being greatly appreciated judging from the large and attentive congregations.

PREPARING TO HANDLE THE CROP.

The Brackman-Ker Company, are making large improvements in their mill across the river and in their elevators along the line of the C. & E. The Leduc elevator is being increased in capacity from 12,000 to 25,000 bushels, and gasoline power is being installed instead of the present horse power. A new 35,000 bushel elevator is being put up at Leduc and gasoline power installed. At Red Deer the capacity of the elevator is being increased from 12,000 to 25,000 bushels. The cost of these different improvements will aggregate some \$15,000.

In view of the kind attention being bestowed on the Edmonton district crops by some of the Manitoba press, the above item is of particular interest showing, as it does, the view of the crop prospects here taken by experienced grain men with capital and who are in a position to judge.

To Save Her child.

From inglorious mismanagement Mrs. Nanny Gallagher, of La Grange, Ill., applied Buckle's Arnica Salve to treat sores on her head and face, and writes its quick cure exceeded all her expectations. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, Scalds, Piles, etc. Guaranteed by D. W. Macdonald, Druggist.

WETASKIWIN.
J. C. Wilson was in town Saturday. Mr. A. A. Goodland paid us a visit on Saturday.
Const. McLeod, of Lacombe, was in town on Sunday.
Mr. John West returned from Banff on Saturday evening.
Mrs. McDougall went up to Edmonton on Saturday's train.
Mr. Isaacson, our juvenile V. S. left for the east on Monday.
Mr. James Gould has moved into his own house on Pearce street.
Rev. O. and Mrs. German, of Hobema, were in town on Monday.
George Horner passed through on his way to Calgary on Monday's train.
Mr. R. Miquelon, of Calgary, paid our town a business visit on Monday.
Mr. and Mrs. A. R. Dickson returned from their visit to Maple Creek on Friday.
E. T. Jacobs and family have now taken up their abode in their new home.
Will Facey left for Red Deer on Saturday to take a position in the creamery there.
Mr. and Mrs. P. A. Miquelon went up to Edmonton on Saturday and returned Monday.
Mr. J. R. Jix is having a residence erected on his lot on Pearce street west of J. Gould's.
The school grounds have been levelled during the last week and a fence is now in course of erection.
Our old friend John Thirak was in town Monday, receiving congratulations on the arrival of number ten.
After the great heat of the previous week the gentle shower on Monday were very acceptable and would help on the filling of the grain.
The body of the unknown man who was found dead some time ago east of town was brought in some few days since and interred in the cemetery.
A car load of limes was delivered in town on Monday. This will make possible the completion of many plastering contracts which have lately been delayed.
Owing to the shortage in barbed wire, one field of 40 acres of oats near town which had only a single strand of wire on the fence, has been all eaten down to the ground.
All crops in the neighborhood are in fine condition, and making rapid progress. With continued fine weather the harvest will be busy within the next two weeks.
Wetaskiwin schools will re-open on Monday, August 13th. All children will have to show evidence of having been recently vaccinated before admission is accorded with the new ordinance now in force.
A caretaker is required for the Wetaskiwin school house for the ensuing twelve months—salary \$150. Applications must be sent in to the secretary not later than Monday, August 13th. Full particulars as to duties can be had on application.
We would again draw attention to the approaching confirmation, by the Wetaskiwin bishop of this diocese, which will be held in the Wetaskiwin Episcopal church on Sunday, Aug. 11th, at 7:30 p. m. Names of candidates should be sent in at once to the incumbent, Rev. O. H. Andras.
Four wheel scrapers were unloaded from the car on Monday last for use in this improvement district. We have to thank our local member, whose persistence has resulted in their having been supplied by the Northwest government. We may now look forward to a speedy improvement in the trails.
The members of the I. O. U. W. held their picnic on Friday last at the Pipestone Creek. The weather was perfect and the attendance good. Every one seemed to enjoy the outing. Unfortunately the day's proceedings were closed by a terrible accident. On the return journey some of the young men very foolishly began racing their horses. One of the conveyances which was being driven at a very rapid rate came to grief and the four occupants were thrown out with great force. Mr. Murphy, who was driving, injured his arm somewhat seriously. Mr. Stender was cut and bruised and Mr. Martin had nothing more serious than a shaking. Messrs. Martin and Murphy were sent up to the Edmonton hospital on Saturday's train.

ORIENTAL REFORM ERA.
A Peking despatch says that the new board, which is called the Regency, and is really a board to consider reform, is regarded as of great importance. Prince Ching, Li-Hung-Chang and Kung Kung, the three members of the board who are in Peking have received a communication of about 2,000 words from the court. This communication defines the duties of the board. It exhorts and commands the board, which is designed to replace the Grand Council, or cabinet, to aim at reform and harmonious relations, to escape poverty, and become strong in sincerity, energy, prudence, and unselfishness. It is also required that the members shall yield their private opinions to the wishes of the majority.
The communication is under ten heads. The first directs that the board shall select subordinates for their ability, integrity, and spotlessness, with regard to rank or precedent. The second says the board must rectify abuses with firmness and moderation. The others are as follows:
"Third—The board must carefully examine all suggestions and memorials for reform. Whatever the board approves the Throne will command as a code of laws. They must not act as other yamens have."
"Fourth—Divide the board into committees, such as those on finance, commerce, the reduction of the debt, etc."
"Fifth—Follow the good things of the old country, and adopt the good of other countries. Remove useless expenditures, and in order to pay the debt, devise new sources of revenue."
"Sixth—Stop contrasting the new and old Chinese with foreigners. The new Chinese ended in the rebellion of the Yaw and the old in the Boxer movement. Imitate Japan, but not everything. Copy the westerners. Their hearts are all good. Those of the Chinese are all bad."
"Seventh—Abandon past methods in recommendations for promotions."
"Eighth—Begin promptly the reform of abuses. There will be full reform on the return of the court to Peking."
"Ninth—Good government depends on men, not measures. Select good men and yourselves act with sincerity and zeal. Briefly, forget self for the public."
This would seem to indicate a desire to institute reforms, but the men who compose the board are avaricious and selfish, like the Dowager-Empress herself, and cannot grasp the situation. The eldest of the lot is Li-Hung-Chang, but he is considered too old to again attempt to make thorough reforms. Wang Wen Shao Jung Lu, Lu Chuan Lun, and Hsu Xing-kuei, the other members of the board are at Singan-lu.

KITCHENER'S SUPPOSED SUCCESSOR.
It is freely rumored that Major-General Neville G. Lyleston will succeed Lord Kitchener as commander-in-chief of the forces in South Africa. Lord Kitchener, it may be assumed, will not be recalled until the end of the war. He is actually in sight, so that General Lyleston's task will be more passive and administrative than that of his predecessor. General Lyleston did good work under Sir Redvers Buller in the early days of the war, but Lieutenant-General Forester-Walker and Lord Methuen are both senior to him. Neither of these men is, however, likely to be appointed, and it must be said in favor of the choice of General Lyleston that he has already distinguished himself in civil life. He is actually in sight, so that General Lyleston's task will be more passive and administrative than that of his predecessor. General Lyleston did good work under Sir Redvers Buller in the early days of the war, but Lieutenant-General Forester-Walker and Lord Methuen are both senior to him. Neither of these men is, however, likely to be appointed, and it must be said in favor of the choice of General Lyleston that he has already distinguished himself in civil life.

THEIR SECRET IS OUT.
All Sadville, Ky., was curious to learn the cause of the recent improvement in the health of Mrs. S. P. Whitaker, who had for a long time, endured unaided suffering from a chronic bronchial trouble. It's all due to Dr. King's New Discovery, writes her husband. "It completely cured her and she cured our little grand-daughter of a severe attack of Whooping Cough." It positively cures Coughs, Colds, La Grippe, Bronchitis, all berry coughs with nothing more serious than a shaking. Messrs. Martin and Murphy were sent up to the Edmonton hospital on Saturday's train.

THE RAILWAY AGREEMENT.

The town council met W. H. Moore, solicitor for Mackenzie & Mann, at a special session held in the council chamber Tuesday night. Mr. Moore addressed the council. He reviewed at length the history of the charter and told of the unavoidable and unforeseen delays the company had encountered in arriving at an agreement to cross the bridge and later in carrying on the actual work of construction. The weather of a storm had greatly interfered with them. But notwithstanding the delay in getting the agreement signed with the government for running right over the bridge the company had gone ahead, without any agreement and trusting to the good will of the people of Edmonton, and had commenced the work of construction. They now had some 100 men at work. He thought they showed, better than a thousand agreements, the good faith and sincerity of purpose of Mackenzie & Mann. As the company had been unable to effect the first agreement within the time limited he had drafted a new one along the lines of the first one, but embodying two alterations. The first one was a change in the clause providing for a penalty for default of completion within a certain time and conditional operation thereafter, and the second was for an extension of two months, or until the first of December, for the completion of the road into Edmonton.

The council deliberated the matter from 8:30 to 12:30. It was suggested that it was highly desirable to have the line in running order in time to save out the grain of this season, and that deal would have to know where the line and station would be located in order that they might erect warehouses and elevators before winter. This Mr. Moore explained was already arranged by the municipality of place and places which any one might see at the engineer's office, and which showed the location of the line on either side of the river and the spot selected as a station site.

His worship said that it had been remarked on the streets that the arrangements were seemingly under way for the supply of railway ties or bridge timber. Mr. Armstrong, engineer of the company, who was present, said that seven or eight car loads of ties were now on the way and that the rails could be laid on the bridge in 10 days after the grading was completed. He had wired away for a pile driver.

Mr. Moore explained that they did not expect to require the extra time and would not need it unless delayed by such unfavorable weather as they had impeded the earlier progress of the work.

Eventually the time for completion was fixed at the first of November, one month earlier than the solicitor asked for; and the substituted clause withdrawing the penalty for non-completion was accepted, the agreement being signed by the town. The old clause provided for a reversion of the charter in case of default, and the new clause dealt with this. The new clause is:

"If the said line of railway so to be constructed be not completed and the operation thereof be not commenced within the time aforesaid (1st November, 1901) the town may give to the company thirty days' written notice to put an end to its default, and unless before the expiration of the said thirty days the said line is actually in operation according to the true intent and meaning of this agreement the town may revoke the charter and rights given to the company hereunder and may order the company to remove from any of the streets of the town any tracks which it may have put down, and the company shall comply with such order."

The old clause, in the former unsigned agreement, was as follows:

"If the said line of railway so to be constructed be not completed in manner aforesaid, and the operation thereof in manner aforesaid be not commenced within the time aforesaid, then upon the expiration of three weeks after the service of a written notice upon Mackenzie, Mann & Co., to the effect that the town claims the said line 'A' of this agreement has not been complied with (without necessarily designating in what respects) and the town intends to take the benefit of this present clause (b); then unless, before the expiration of the said period of three weeks, the said line is actually in bona fide operation according to the true intent and meaning of these presents, the contract and provisions and conditions of the said instrument of the 16th December, 1897, as amended by that of the 20th June, 1898, shall be the option of the town, and to such extent as the town may see fit to declare become revived and in full force and effect without prejudice to the liability of the said company or the said Mackenzie, Mann & Co. under these presents, or the said covenant."

Clause "A" referred to above provides that "the company will by the first of May, 1901, commence the work thereof with all convenient speed and by the 1st of October, 1901, so far complete as to admit of the running of trains thereon, the construction of a line of railway from some point on the present line of the Calgary & Edmonton railway to a point near Strathcona, across the Saskatchewan river to some point within the town of Edmonton described as follows:

LIES TRAVEL EAST AND FAR.

The alleged C. P. R. report stating that the wheat crop at Edmonton is a failure, and that the district is suffering from unfavorable weather, which appeared in the Winnipeg Telegram of Aug. 2nd, is repeated in recently received issues of the Mail and Globe and no doubt is going the rounds of the Eastern press. Such a report cannot do else than bring great harm to the district, and the question of who started the report should be followed to a finish. Up to date the prospect for a heavy crop and excellent sample of both wheat and oats throughout this district was never better. Wheat cutting will be general between the 20th and 25th. In the Westsaskatchewan district it will be somewhat earlier. It is to be hoped that the papers which have published the false report will publish the correction.

MARKETS.

New potatoes are commencing to come on the market in quantities. Merchants are now selling stocks on hand at 75 a bushel, but the purchasing price has dropped to 50c, and that will be the selling price in a day or two. Butter is plentiful at 12 1/2c. for fat and 15c. for prints. Eggs are scarce at 15c.

LOCAL.

—F. A. Osborne is camping at Cooking lake.

—Mrs. J. W. Nor's returned from Banff last night.

—The coast excursion starts on Tuesday, the 13th.

—A workman's hall takes place to-night in Robertson Hall.

—E. Jaffray, of the Imperial Ball, left for the coast Wednesday on his vacation.

—Lacomb's Advertiser: Miss Shillett returned on Saturday from Edmonton. She was accompanied by her sister, Mrs. Shaw.

—Mr. and Mrs. A. W. Shields and child, of Edmonton, are visiting with Mr. and Mrs. Patrick east of town.—Lacomb's Advertiser.

—Rev. H. A. Gray left Tuesday for Banff on a short vacation. No service will be held in the Episcopal Church here next Sunday.

—D. K. Ross, of Cookstown, Ont., came in last night on his way to the coast. Mr. Ross is a cousin of Fred and Jas. Ross of Edmonton.

—Quang Wo, a new arrival from the Orient, is opening up a laundry in W. A. Walker's store building on Main street near the Massey-Harris.

—The gasoline launch owned by some of the members of the Koney Island club will be shortly run from Big Lake, where it has been making experimental voyages, to Cooking lake.

—Calgary Herald, Aug. 7th: Dr. Rouleau received a telegram from Montreal this morning stating that Judge Rouleau was no better, and requesting that Miss Rouleau leave the east as soon as possible.

—John Fraser has been engaged by the Northwest government to superintend the expenditure of the \$500 appropriated by the Dominion government for the improvement of the road from Lesser Slave Lake to Baker Crossing. He left for the north Tuesday on the Athabasca stage.

—Survivor Alexis E. Fontaine, the victor of the shooting of a shabadoo of some months ago left for the east yesterday morning. Mr. Fontaine has so far recovered from the effects of the accident as to be able to travel around again. He goes to Ottawa and thence to his home in Quebec province.

—Mus Gouin, sister of G. A. Gouin, was thrown from her horse while riding on Queen street Tuesday evening, and sustained a fractured wrist as well as painful injuries to the head and face. Under the care of Drs. Harrison and Buchanan the young lady, we are pleased to say, is progressing very favorably.

—Elsewhere in this issue is mention of the death of Marshall Robinson, which took place at Ingersoll, Ont. The deceased, who was a nephew of W. S. Robertson, visited Edmonton about a year ago. He also resided for some time in Medicine Hat. His father will be remembered by some old timers, he having been in Edmonton during the rebellion of '84-'85.

—A private letter from Saskatoon, Sask., says: If reports are true we are likely to have a branch of the C. P. R. from Mooseman, to go on to Edmonton. The surveys have been through and the line will cross just above the present railway bridge. An elevator will be built here. There are already four implement agencies. Out cutting is general. The forest ranger we have ever had is ready for the harvest.

—Of the \$5000 appropriated by the Dominion government for improving the roads to the north, \$1,500 is being expended on the road between Edmonton and the Athabasca Landing. The work is being carried on under the supervision of M. McCauley, who left yesterday to commence operations. The \$5000 is a Dominion government grant, the expenditure to be supervised merely by the Territorial department of public works.

—The Lacomb's Advertiser says: On Monday afternoon Louis Johnson, of Lamerton, met with an accident which resulted in the loss of his left hand. He was hanging his gun on the wall when it discharged, the charge entering at the wrist and badly mutilating the whole hand. The shot passed through the floor, narrowly missing the head. The wound was bound as well as possible and the unfortunate man was brought to town by Dr. J. M. Gull and Charles Ludwig. The operation was performed by Dr. J. M. Gull, assisted by Dr. McCauley, and the patient is doing remarkably well.

—A little child, shoeless, hatless, and lost, was found wandering on one of the trails about half a mile north of Rat Creek Wednesday afternoon. As the child was so small and so lost, beyond that his knowledge did not extend. The little fellow appeared to be about two years old. He was taken care of by Mrs. Kennedy who notified the mounted police so that any inquiries might be rightly directed. Following the little fellow was claimed by a Galician family. He had, they said, strayed from their camp about two weeks from which he was found, while the family were on their way from town to Beaver lake.

THE DUKE OF YORK'S VISIT.

His honor, the lieutenant-governor, has received the following telegram from the governor-general's secretary, with reference to the forthcoming visit of their Royal Highnesses, the Duke and Duchess of Cornwall and York:

Ottawa, July 31, '01.

I am commanded by His Excellency to request that you will kindly inform all concerned that, in accordance with instructions which His Excellency has received, no programme for the visit of their Royal Highnesses can be approved without His Excellency's official sanction.

METEOROLOGICAL.

Friday, 2nd, 75. Max. Min. Rain.

Saturday, 3rd, 70. 49.

Sunday, 4th, 82. 52.

Monday, 5th, 80. 55.

EDMONTON BRANCH.

Interest allowed on Deposits.

A general banking business transacted.

J. S. WILLIOTT, Manager.

THE CROP CONDITIONS.

For the purpose of finding out the true condition of the crop, the various local implement agencies have men travelling throughout the country in the vicinity of Edmonton. Soon by a representative of the Bulletin these men told the one story, and that story was that the crop throughout the district never looked better. All were elated over the prospects; nothing was wanting but a continuance of the weather of the last two weeks to bring forth the most successful yield in many years.

Mr. Boucher, of the Deering Co., had been out in the St. Albert district, and speaking of the crop there said: "I never saw better crop in my life. They are a little greener than they might be but the growth is magnificent. The wheat will average four feet six inches in height, and all heading. The barley was commencing to turn."

Chas. Marchand, of the Frost & Wood Co., said of the crop along the Fort Saskatchewan trail and in the vicinity of the fort, where he had been travelling, that all looked splendid. Much of the grain was turning, and cutting would be general in from twelve to eighteen days.

John Kelly, of Kelly & Beals, (Frost & Wood agency) with J. H. Shelden, of the Champion Machine Works, had been through the settlements of St. Albert, St. Enoch, St. Eugene, Glenora and Monroville, and both said that they never saw such prospects for a successful yield. "No one could wish for better," Mr. Kelly said. "The barley and some wheat was beginning to turn."

Mr. Feurt, of the McCormick Co., had been through the country in the more immediate vicinity of Edmonton and that as a general thing the grain was looking first class. He had advised his general agent that wheat cutting would be general the end of this month.

M. Gowda, of the Bellamy Company, returned yesterday from the Beaver lake, Egg lake, Star and Veggie settlements. "The crops are looking fine, in first class condition," Mr. Gowda says. "There has been no hail and set-ers are elated over the prospects. Some will commence harvesting barley and rye in two weeks and wheat in three, and good hay is being cut on the prairie."

Gus Lacerte, one of the well known farmers of Stony Plain, was in town Wednesday. He said that harvesting of his Ludoga wheat next week.

Gus Dore, of Beaver Hills, said that the grain in his district could not look better. The wheat was fully formed but not in the milk. "With good weather we will have the best harvest we have ever had," Mr. Dore said. Joe Hostyn, of Stony Plain, had the same good news to tell of the harvest in his settlement. The grain could not look better than it is at present. The weather might have been elsewhere, but with favorable weather the crop would be a enormous success.

AN IMPORTANT JUDGMENT.

A judgment of particular interest to residents throughout the Territories was given at the sitting of the full court at Regina last week, which dismissed the appeal of the Hudson's Bay Company in its case of McGowan vs. The Hudson's Bay Co. This case was taken by the Territorial government on behalf of the overseer of the Whybyan improvement district for taxes on lands of the Hudson's Bay Company. The case was heard by Mr. Justice Richardson last year and judgment was given in favor of the overseer. From that judgment the company appealed to the full court, but their appeal was dismissed. The judgment of the full court has finally settled the question of the liability of owners of lands in the local improvement districts for local improvement taxes; and it is understood that the Territorial government intend taking immediate action against the companies and individuals who have refused or neglected to pay such taxes.

SERGT. JACKSON RETURNS.

Sergt. F. A. Jackson, who enlisted at Edmonton with the C. M. R. and served in South Africa as transport conductor and later as band leader's Scouts, returned Wednesday night from the scene of war. Sergt. Jackson looks well and is in good spirits. He was a member of the Scouts of the campaign. He was an experienced packer for many years and a recognition of his abilities in that line was apparent in the charge of the transport trains of the scouts, in which capacity he served with distinction as the leader of the commanding officers, which he has with him, show. His stories of the Scouts' mode of conducting themselves are most picturesque. "We had a good name on the field, but in the towns, well, latterly they would not let us go in at all. When we got in we were too long and things used to happen. But our officers, that is the old, experienced ones, were mighty smart to see us go. They young ones, all respect and starch, we had no use for. When we were in the towns we were right through town to the station. We came down, all out of dress, arms everywhere, and even Kitchener smiling when we went along by, and a body yelling, 'Hail, hail, the King's all here.' When we got to the depot and the order came 'Get your hats dropped as one. The line was as straight as that wall—no dressing either. We knew our drill; we could do it and we showed them."

All the men of the Scouts were made sergeants in recognition of their services.

Bugler King, the only other Edmontonian returning, who is a sergeant in the 1st Hussar, returned Wednesday night. He will stay for some time in Edmonton. Sergt. Jackson's wife went down to Winnipeg to meet him but they passed on the road and now each is looking for the other.

MARRIAGES.

Beverington-Pennell.—At the manse on Aug. 8th, by the Rev. D. G. McQueen, S. T. Beverington, of Edmonton, and Mary M. Pennell, lately of Tesseville, Ont. Doctor of Optics.

W. J. Harvey, O.D. M. C. L., Professor of Ophthalmology, Doctor of Optics, Scientific Optician, of Toronto, Ont., will be at St. Nankin's jewelry shop for one week, commencing on Monday, August 5th, for the purpose of fitting spectacles and doing general optical work; all persons suffering from visual defects, cross eyes, Hypermetropia, Myopia, Astigmatism, Presbyopia, errors of Refraction, Accommodation or Convergence, will be accorded a free examination and consultation. Cases requiring spectacles will be fitted with the most accurate corrections that the science of Optics can produce and at all the most reasonable prices. Hours 10 to 12 and 2 to 5.

BOARD OF TRADE.

A general meeting of the board of trade was held in the board room on Tuesday morning, present: Messrs. Garney, Times, Fisher, Blaney, E. C. Richardson, Willmott, and Mackenzie. Mr. Floyd and the secretary were appointed a committee to go into the question of having the Fort Saskatchewan mail route changed from the south to the north side of the river. The standing committee on railway and express tariff were asked to go into the matter of railway rate grievances and report thereon. The matter might be laid before Commissioner McLean on the 20th. The committee decided to meet on Wednesday morning to take into the matter.

Re the traders' rate asked for by the trade some time since and declined by Jamieson.—At Lacomb, on Sunday, August 5th, George Hill Jamieson, aged 35 years.
